dry steam technology

CLEAN AND SANITIZE WITH THE POWER OF DRY STEAM

THE BEST STEAM CLEANERS

Leader in the production of dry steam generators and cleaning equipment

menikini
dry steam technology

1

OUR COMMITMENT FOR SUSTAINABILITY

saturated dry steam is a completely green technology

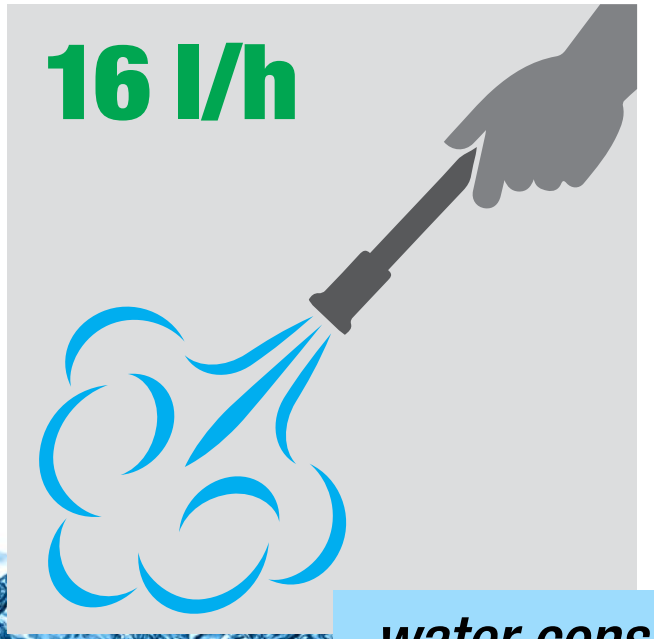
menikini
dry steam technology

2 SAVE PRECIOUS WATER

1.500 l/h

water consumption of the traditional pressure washing system approximately 1,500 l/h

16 l/h



water consumption of 10 kW Menikini steam generator about 16 l/h

menikini
dry steam technology

3

DRY STEAM CLEANING POLICY
FRAGRANCE & CHEMICAL FREE

CLEANING WITHOUT DETERGENTS

80% less detergents and chemicals used

menikini
dry steam technology

4

SANITATION WITH DRY STEAM

Abatement of pathogens thanks to high temperatures (160° - 180°)

menikini
dry steam technology

5

HACCP

HACCP PREVENTION OF FOOD CONTAMINATION

the efficiency of steam has been approved in the cleaning and sanitizing processes required by HACCP
